

# Your Complete Bullet Resistant Glass Source

Increased crime, foreign and domestic terrorism, and readily available weapons have created an urgent need for higher performing security glazing materials. With over 30 years of experience, California Glass Bending offers exceptionally high-performing laminates to meet these needs...

- Fully tested to U.L. and N.I.J. levels as required by current building codes
- All glass make-ups and glass clad polycarbonate make-ups available.
- Full fabrication available-speak holes, pass thru, miters, notches, polishing.
- Timely, accurate toll free phone and fax quotes.
- Reliable on-time deliveries or pickup at our dock.
- Complete crating and shipping services.

		Level	Test	Weapon	Overall Thickness	Wt. / Sq. Ft.	# of Shots
	Medium Power Small Arms	I-GCP	HPW-A	.38 Special	3/4"	4.2	3
